⚙ Skills

Software: Visual Studio Code,
Android Studio

State management : Provider,
Getx, Bloc Pattern

Database : SQLite, Firebase,
mongoose

Rest Api, Socket io

Build api with Node.js

👍 Field of Interest

Application development (flutter)

Blockchain Technology

Python development

Artificial intelligence

Objective

To obtain a challenging position in a high quality engineering environment where my resourceful experience and academic skills will add value to organizational operations.

Academic Details

Shree Swami Atmanand Saraswati Institute of Technology

Mechanical engineering, 8.17 CGPA, 2022

Work Experience

It Quick Solution

Flutter developer, Jun 2022 - till date

Role : Flutter developer

Project Details

1. i-Robot

This is our initial startup, which is completely based on automation. In which we have to build up a robot which controls and maintains the whole medical store automatically.

Period : 5 months Team Size: 5

2. E-commerce app

I worked on E-commerce for Training purposes. In that app I did all those functionality like push notification and also make that app flexible so that it is useful for user, admin and delivery boy.

3. Subjiwaala app

That was live project. In this project I have to build total 5 applications (delivery app, farmer app, sub-franchise app, user app, employee app).

4. Chat application

This application is based on chat functionality. In this application I used socket.io with node.js and mongoose with flutter as a front end.

5. Leap Onboard

This was my first live project. Leap Onboard is based on educational purposes and also available in playstore.

Period : 2 months Team Size: 3

Achievements

1. Got grant in I-robot project (1st startup).
2. Innovation award in International Planetary Aerial System Challenge (IPASC) on Innovative power generation system.
3. 12th rank in International Rover design challenge(IRDC).
