Objective:

I have **4+ years of experience** in IT field. I will know about the nature of my work. Seeking an interesting role that leverages my expertise in PHP and allows me to apply my skills in Android and Flutter development. I will be able to do my job more proficiently. On the other hand, shall implement my knowledge into the practical world. Committed to delivering high-quality code, staying up-to-date with emerging technologies, and collaborating with cross-functional teams to achieve project success.

Educational Qualification:

I had completed my **B.E** (Bachelor of Engineering) with **C.S.E** (Computer science & engineering) from Gujarat Technological University (G.T.U).

Technical Skills:

| | |
|------------------------------|---|
| Programming language | PHP, Kotlin, Dart, JavaScript |
| Web Frameworks | CodeIgniter, Laravel |
| Frontend Technologies | HTML5, CSS3, Bootstrap |
| Database | MySQL, Firebase |
| Version Control | Git |
| API Documentation | Postman, Swagger |
| Others | <ul style="list-style-type: none">• RESTful API Development• Debugging and Troubleshooting• Performance Optimization• Strong problem-solving and analytical skills |
| Other Tools/Platform | MS Office, Adobe Photoshop, Figma, Trello |

Professional Experience:

1) Currently working (**from last 4+ years**) as back end developer in **MeshDroid Technologies, Navsari** from January 2019 – Present.

- Developed and maintained robust APIs using CodeIgniter framework to enable seamless communication between frontend applications, mobile apps, and third-party integrations.
- Integrated third-party APIs, such as payment gateways and social media platforms, to enhance application capabilities.
- Implemented authentication and authorization mechanisms using JWT to ensure secure API access.
- Collaborated with frontend developers and external teams to define API specifications and requirements.
- Participated in code reviews and provided constructive feedback to improve code quality.
- Conducted regular maintenance and updates to keep the applications secure and up-to-date.

2) I have **1.5 years** of experience in **Gujarat Forest Department, Navsari Division** as an IT Support Engineer from May 2017 - December 2018.

- Handle different government portals like eGujForest, Government eMarketPlace, IFMS, Social accounts etc.
- Assisted the support team in troubleshooting and resolving technical issues related to sorting systems.
- Conducted research and analysis to assist in identifying root causes of issues and recommending appropriate solutions.

3) I have **1 year** of experience as Dot Net developer in **Tech-fusion technologies, Navsari** from May 2016 - April 2017.

- Providing comprehensive training and mentorship to individuals seeking to enhance their skills and become proficient in .NET technologies.
- During this experience, I developed and delivered training programs tailored to meet the specific needs of trainees. I created engaging and informative training materials, including presentations, hands-on exercises, and code samples, to facilitate a practical learning experience.

Personal Profile:
